

Sally Tippett Consultancy

Ensuring good practice across the whole school

Having previously worked at a local authority level, and a current ICT Mark assessor and 360 Safe assessor, I will work with your school to help you develop and achieve your vision, audit current practice and develop an action plan through a range of services.

Leadership

- Whole school technology audit
- Online safety audit, consultancy and training
- Procurement advice
- Website compliance audit

Online safety

- Full online safety audit
- Subject leadership support
- Awareness training for staff, parents and governors
- Preparation for the 360 Online Safety Award

Raising standards

- Full technology audit
- Engage learners through the use of technology that meets their needs and abilities
- Plan for sustainable development
- Preparation for the Naace ICT Mark

Exploring emerging technologies

- Augmented Reality
- Virtual reality
- Robotics
- Green screen filming and editing

Computing curriculum

- Audit of current planning and delivery
- Subject leadership support
- Staff skills audits
- Team teaching and model lessons
- Curriculum planning (medium and long term)

Mobile learning

- Strategic consultancy and visioning
- Staff training
- Curriculum planning support
- Team teaching

If you would like to find out more about the services I offer, please do get in touch. I will be happy to offer you a **free** no obligation consultancy visit to discuss your needs.

Charges for support start from £200 for a half day.

You may wish to choose one off training or support for your staff, an audit visit or a package of support which can be tailored to your specific needs and delivered over a period of 12 months ensuring you receive regular ongoing support to achieve your vision.

All visits will be documented for you through a comprehensive school visit report which you can keep for your professional development records.
